

Evolution Through
INNOVATION™

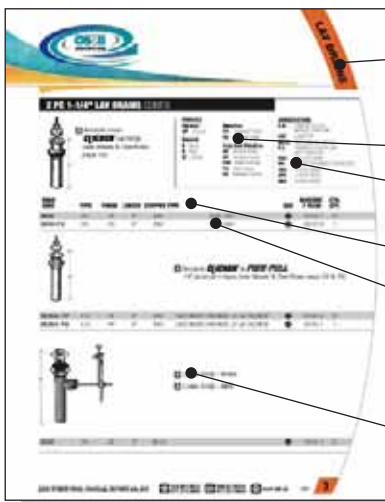

Here it is! Sometime in the making, but we think you'll be as excited about our new catalogue as we are! We've made it even easier to use than ever before, and have added features such as a Company and Agent Contact List and Special Finishes Guide!

It's easy to use...

1. Pick the Section using the colour coded Section Guide at the front of the catalogue.
2. Find the Product using the Table of Contents located at the beginning of each Section.
3. Choose the desired Product on the appropriate Catalogue Page.
4. Locate the Price in the alphanumeric Price List at the back of each Section.

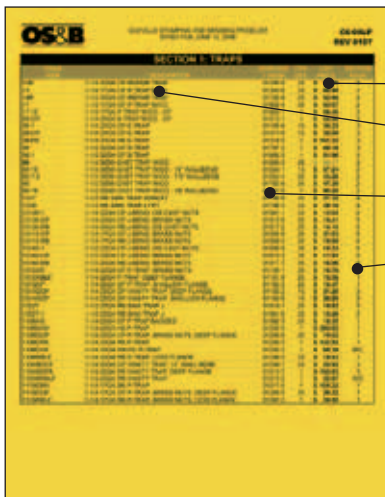

OUR NEW LOOK!

PRODUCT PAGE

- **SECTION TABS** Each Section is identified by colour coded tabs. The coloured tabs are used throughout each Section.
- **FINISHES** Guide found at the top of each page for quick reference.
- **ABBREVIATIONS** Guide defines the abbreviations that are used within that particular Section.
- **CATEGORY** Headers help quickly identify the major product categories within each Section.
- **INFORMATION** – Columns: We've broken down the product descriptions into easy to follow Columns to make it easier to quickly identify the product you need.
- **FEATURE** Bullets highlight the special features or characteristics for that particular product.

PRICE PAGE

- **Product Pricing** is now found at the back of each section in the coloured Alphanumeric Price List.
- The Price List shows a brief product **description**.
- **UPC Codes** are now indicated, as are case quantities.
- The corresponding catalogue **Section page** is also indicated for quick cross reference.

Dear Valued Customer,

Please be advised that effective February 2, 2007, the **List price** on a small number of items has been increased or decreased as a result of fluctuations in the cost of raw materials. The affected items, listed below, are bolded on the enclosed PRICELIST in their appropriate section, for ease of identification.

We are excited to announce some new items and categories, including **Drain Pans** (Section 8) and a complete line of **Kitchen, Bar & Commercial Strainers** (Section 9).

Without a doubt though, our biggest news is the introduction of a **Waste & Overflow Rough-In & Trim Kit program**. The **RI&T** program allows you to stock ABS Clicker™ and Cable-Drive® Rough-In and Trim Kits separately in today's most popular finishes, maximizing your options while minimizing your SKU count. Turn to the first two pages of the Waste & Overflow Section in your new catalogue for the complete details...

Please note that availability will vary on these new products during the 1st quarter of the year. Please call us to check availability.

Finally, you spoke, and we listened! You asked for toll free telephone and fax numbers, and now we have them:

Telephone:	Local:	905.827.0320
	Toll Free:	877.314.6040
Fax:	Local:	905.827.6375
	Toll Free:	877.827.6040

Thank-you for your support in 2006, and wishing you much success in 2007!
