

The all new... **SD45**

Shower Drain from OS&B™

Introducing our completely re-designed Shower Pan Drain.

We've redesigned our SD45 to include an extra-long Body for deeper installations and an interchangeable Grate. We've also built-in SD40's most popular features (Reversible Collar for increased adjustability and Weeping Channels for better drainage). As a result, we've discontinued SD40.

We're also proud to announce that SD45 is now 100% made in Canada!
